WSDA Information

Draft Applications Now Available

Draft applications for industrial hemp licenses are now available! Due to mandatory wait periods established in Washington law, the soonest the final applications can be released is May 14, 2017. The IHRP understands the urgency of application completion and license issuance. We are releasing these draft applications to help prepare those interested in obtaining a license. These draft applications will look very similar to the final ones we release.

To view the draft applications, click [here](#).

New ListServ Created

Due to the great interest in the Industrial Hemp Research Pilot program, a new ListServ has been created to keep those interested informed and up-to-date with what is happening. Just like with the email distribution list, the new ListServ will send out newsletters and other updates about the IHRP program. The old email distribution list system will be retired, so to continue to receive the IHRP emails, you will need to subscribe to the new ListServ.

To sign-up for the new IHRP ListServ, click [here](#).
